

RED ALERT

Who Are We?

Mission Red Alert

The mission of the Social Action Committee is to monitor and brief the chapter on social and legislative issues and advocate for the rights of people of color.

Additionally, we seek to provide activities that will foster voter registration, voter education and the full restoration of voting rights for individuals who have paid their debt to society. Advocating for affordable quality health care, gender equality and eradicating voter suppression and racial profiling is also a part of our mission.

Amendment 4

What you should know about Amendment 4 - Christina Royce, ESQ.

The Voting Rights Restoration for Felons Initiative, also known as Amendment 4, passed by ballot initiative on November 6, 2018. The proposition restored the voting rights of Floridians with felony convictions after they complete all terms of their sentence including parole and probation.

The trial between the ACLU vs State of Florida began in April 2020. The State argues that the plain meaning of Amendment 4, requires that all terms of someone's sentence must be completed before they vote. However, the Plaintiffs in that case were allowed to participate in the March 17th primary thanks to a temporary restraining order issued by a federal judge.

In the meantime, people with felony convictions can take advantage of the "fast track" program that was created by the Miami-Dade State Attorney's Office, the Miami-Dade Public Defender's Office, and the Miami-Dade Clerk of Courts. (<https://www.miami-dadeclerk.com>) With this program, judges can set aside some financial penalties that would otherwise prohibit someone with a felony conviction from voting. A person with a felony conviction must file a motion with the court to modify their sentence. This can be done through an attorney or by simply going to the clerk's office and telling them that you want to file the motion to modify. The individual must express that they have an inability to pay the fines & fees. Restitution that was required as a part of the sentence is not included in this program, neither are any murder or sex offenses.

Red Alert Spotlight

31st Annual Delta Days in the Nation's Capital, Washington D.C. February 22, 2020-February 25, 2020

My first experience at the Delta Days at the Capital was extraordinary! I had no idea what to expect, so I was blown away by the various informative sessions. Each session pumped me to do more to make a difference in our community!

Several speakers stressed the importance of participating in the census and the impact that an under count would mean in our neighborhoods. The results of the census determine the number of seats in the House of Representatives, federal funding for education, health facilities, highways, etc. It is important to let people know that any information revealed on the census is confidential for 72 years, and workers who break the law can receive fines of \$250,000 or up to five years in prison.

Another focus for our community is Voter Education and Voter Registration. We must do all we can to locate some of the 8 million Black Americans who are not registered to vote. In 2016, Florida was one of the six states that had many unregistered Black people. We must get them registered and inform Floridians that they have several voting options:

- Vote early at any voting location, but on election day, they MUST vote at the designated precinct.
- Vote by mail and return ballot on time.
- Vote on Election at assigned precinct.

On Monday, Rev. Dr. Frederick Haynes III, of Dallas, Texas took us to church.

On Tuesday, we visited the offices of Senator Marco Rubio and Senator Mitch McConnell, neither were in. Senator McConnell's aide met with a group of us briefly.

I highly recommend this DST Activity!

Cherish the moments!
